Vroom®

The first **Quick Clean Product** you never have to put away

It attaches to your central vacuum system and hides in cabinets, pantries, closets or under counters. Vroom is always ready, willing and able to clean up daily messes in the time it takes to grab, pull and retract.

Vroom packs up to 24' of retractable hose into a sleek, durable case no more than three inches wide.

The *attached tool caddy* holds an adjustable wand and combination rug/floor tool so your cleaning attachments are always close at hand when you need them.

There When You Need It. With up to 24' of retractable hose, Vroom is never far from reach. The Vacuum Power Adjustment Knob allows you to adjust how much cleaning power you need, while the Hose Lock keeps the hose from retracting as you clean.

Quick Cleaning. Use Vroom to clean any dry mess on floors, in drawers, on counters and anywhere else daily messes happen. From pet hair to spilled cereal to broken glass, no mess is a match for Vroom's speed and convenience.

Retractable Hose. When you're done vacuuming, the hose automatically retracts and stays out of the way until you need it.

Easy and Convenient. Ergonomically designed grip, adjustable vacuum power and automatic on/off make Vroom the most convenient cleaning product around.

Vroom® *Every Room ... Even the Garage!*

Cleaning convenience like you could only find at a car wash

A handy garage-mounting bracket turns Vroom into a space-saving necessity for easy cleaning of garages and cars. Just reach up, pull down the handle and vacuum. The hose retracts automatically when you're done. Vroom brings central vacuum power right where you need it—on car interiors, floors, workbenches, around windows and doors. And, unlike other cleaning supplies, you'll always remember where you left it.

Car Interiors

Garage Floors

Workbenches

The Vroom Garage Mounting Bracket attaches with channel brackets the same way your automatic door opener does.

Garage care kits and additional accessories available!
